# *Feasts and Crafts*

## **Incredible Edibles**

The Original Renaissance Pleasure Faire boasts mouthwatering favorites associated with fine dining delicacies of the 16<sup>th</sup> Century, including the iconic turkey leg, a delightfully delicious English meat pie, a giant, smoldering Baked Potato, or a crisp, cool Greek Salad, to name just a few. An array of tempting and refreshing desserts trifle with your senses and compete for your taste buds, including; sorbets, ice creams, cookies, and cakes. Of course, the traditional ale, in a number of flavors, or a tasty port, is always available to toast away your feast. The Faire includes over twenty food establishments, all eager and happy to serve.

## **Unique Handicrafts**

Now in our 47<sup>th</sup> Consecutive Season, the Original Renaissance Pleasure Faire has become, for many, the ultimate destination in unique, hand-made, one-of-a-kind, shopping! The Faire is inhabited by hundreds of fascinating artisans and craftspeople, representing a dazzling variety of tempting trinkets, evoking cultures from around the world. In addition to our highly collected 'mature' artisans, 20 new artists will also be showcased over the course of our brief season!

Also available this season, the Faire extends an invitation for visitors to attend special Workshops and Lectures, relating to various aspects of Faire life. A wide array of opportunities exist from a free lecture on essential and helpful costuming tips, to a stern talk from a Knight of the Royal Joust regarding the role and conduct of a man of honor some five-hundred year ago. Workshops, ranging in cost from a mere \$3 to \$22, will immerse the participant in a hands-on demonstration guided by experts in the field of Paper Casting, Lacework, Basketry and the like. Start and complete a project and make a memory you can take home with you!
